

REMARKS

Claim 14 is rejected under 35 U.S.C. 102(e) as being anticipated by Jones et al. US 2004/0179283. This claim has been cancelled to advance prosecution.

Claims 2-5, 7-13, and 19-22 are indicated as being allowed. Claims 15-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 15 has been rewritten in independent form. Claims 16-18 have been cancelled. New claims 23-26 have been added, directed towards the subject matter of original claim 15 or 16, now dependent upon claim 2 or 7. Support for such new claims may also be found, e.g., in the paragraph bridging pages 5-6 of the specification. Accordingly, all pending claims 2-5, 7-13, 15, and 19-26 have been indicated as allowable, or depend from claims which have been indicated as allowable, and accordingly all claims are now believed to be in condition for allowance.

In view of the foregoing remarks, reconsideration of this patent application is respectfully requested. A prompt and favorable action by the Examiner is earnestly solicited.
